Jim Johnston  
Marc Chasin  
Denette Dresback

#### **DHW Staff Present:**

Carla Cerchione  
Cynthia York

#### **Guest:**

Dr. Andrew Baron, Terry Reilly Health Services

## OPENING REMARKS

- ❖ Scott Carrell welcomed the members. The HIT members introduced themselves. Minutes of the 9/19/2014 HIT Workgroup meeting were accepted as prepared.
- ❖ Article Review – Scott Carrell, IHDE
  - [Healthcare IT News](#)
- ❖ SHIP Update – Cynthia York, Health & Welfare
  - CMMI sent another request for additional information.
  - Idaho was selected to present the SHIP to CMMI.
  - The presentation team was composed of Director Armstrong, Dr. Epperly, Jeff Crouch, Lisa Hettinger and Denise Chuckovich. Director Armstrong, Lisa and Denise were on-site in Baltimore. Dr. Epperly and Jeff led the presentation in Boise.
  - The IHC was very well represented.
  - CMMI is anticipating to award funds by the end of October. They inquired if DHW would accept a lesser amount than their original request.
  - CMMI needs assurance that requested data will be provided.
  - [State Healthcare Innovation Plan \(SHIP\)](#) website
- ❖ SHIP Quality Measures – Dr. Andrew Baron, Terry Reilly Health Services
  - The SHIP goal related to data analytics is “Build a statewide data analytics system that provides quality feedback to the provider, region and state”.
  - The Quality Measures workgroup selected core quality measures based on national standards.
    - Tobacco use assessment and cessation intervention
    - Weight assessment and counseling for children and adolescents
    - Comprehensive diabetes care
    - Screening for clinical depression
    - Asthma ED visits
    - Acute care hospitalization (risk-adjusted)
    - Readmission rate within 30 days
    - Avoidable emergency care without hospitalization (risk-adjusted)
    - Elective delivery
    - Low birth weight
    - Adherence to antipsychotics for schizophrenia
    - Access to care
    - Childhood immunization status
    - Adult BMI assessment
    - Non-malignant opioid use
  - These 3 Core Quality Measures will be looked at the first year:
    - Tobacco use assessment and cessation intervention
    - Weight assessment and counseling for children and adolescents
    - Comprehensive diabetes care
  - The IHC will establish a baseline for each of these measures. The development of a Performance Measure Catalog and reporting of statewide performance measures across multiple payers and populations is a major first step for Idaho as we move toward population health management.
  - Payment systems and standards will emphasize outcomes and value rather than volume.
- ❖ Scope of the charge for the data analytics workgroup, new circular flow chart – Scott Carrell, IHDE
  - The updated diagram as well as Dr. Baron’s comments will be presented as the next deliverable to the IHC at the November 12, 2014 meeting.
  - Prior to the next meeting, a charter will be created, members will be selected, future meetings scheduled.
- ❖ Closing Items/Next steps (Timeline, Meeting Dates, Agenda Items Development) – Scott Carrell, IHDE

- The HIT workgroup will hold their next meeting November 17, 2014 from 3-5pm.

The meeting concluded at 5:00 p.m.
